1. [REDACTED] called and requested that Otto Guthe, AD/RR-designate, be added to the list of cable releasing officers so that there would not be an interregnum when Mr. Amory moves up here. He also asked that O/RR receive, as promptly as possible, a CIA Notice of his appointment as AD/RR. I am referring both of these items to [REDACTED] 25X1A9a

2. Invited General Cabell, through [REDACTED] to attend the luncheon being given by DD/I for General Truscott. General Cabell declined with thanks to [REDACTED] 25X1A9a

3. Explained to [REDACTED] the circumstances surrounding [REDACTED] dispatch to Hong Kong to interrogate the White Russian-Manchurian railway workers and forwarded to him the latest cables on this subject. 25X1A9a

4. Set up and attended the briefing for Ambassador Dillon. The program started by a discussion of the Agency structure by Mr. Dulles and was followed by [REDACTED] and representatives of O/CI who covered the current situation in France and Indochina. The DD/I part of the program closed with a talk by [REDACTED] of O/NE. The briefing was then turned over, at 3:40 P.M., to DD/P-[REDACTED] 25X1A9a

4. DD/I arranged with [REDACTED] MSA, for a list of the individuals being dispatched to make a survey of MSA developments around the world. I passed this list to [REDACTED] with the request that he check the names against both the CIA consultant list and the contacts list. [REDACTED] later reported that many of the names are contacts but that it will be impossible to brief these men before they leave as they are known only to their home-town CIA representatives, and presumably will not return home from Washington before leaving for their trip. DD/I approved [REDACTED] recommendation that no effort be made to contact them before they leave but that they be debriefed when they return home. 25X1A9a

5. [REDACTED] called to state that General Truscott cannot attend the DD/I luncheon at the Cosmos Club and DD/I decided to make this an IAD family luncheon. 25X1A9a
